

April 23, 2008

Dear Center for Family Development Supporter:

Kelley Proxmire, one of Washington's top ten designers, is teaming up once again with the Washington design community and the Center for Family Development (CFD), home of the 2002, 2003, and 2004 nationally photographed and acclaimed Designers' Showcase, to bring another exciting fundraiser/designer-related event to the Washington DC Metropolitan area. . .

The 2008 Designer Tent Sale. (DTS)

The ***DTS*** will be held on the lush, rolling grounds of the CFD, nestled in the heart of Montgomery County. This spacious and tranquil setting lends itself perfectly to this great community fundraising event which will benefit the CFD's unique mission of forming leaders and offering programs that support and strengthen the family with marriage preparation, marriage enrichment, parenting workshops and youth leadership clubs. www.bethesdaafd.org.

Kelley Proxmire's award winning track record and proven organizational skills have the design community a buzz with excitement and anticipation. We are expecting over 50 of Washington's best designers to take part in this exciting community event and anticipate over 1000 attendees during this three day event. The event will kick off with an invitation-only opening night soirée, "***First Dibs Night***" for socially prominent Washingtonians and designers.

We would like to ask you to contribute your support to the ***DTS*** by being one of the sponsors the ***DTS*** and participate as one of the hosts for the ***First Dibs Night*** event. By your participation, your name will be featured prominently in the publicity, advertising and invitations as one of the sponsors of the ***2008 DTS***. The CFD is a 501c3 Tax Exempt Organization your donations are tax deductible. Levels of support:

Leadership Circle \$3,000-\$5,000
Family Circle \$1,000-2,999
Friends of the CFD Circle \$500-\$999

Thank you for considering being a sponsor of this worth while and exciting community event, and for helping to strengthen the family and form leaders for the future.

Sincerely,

Cristina Tallent
CFD Special Events Coordinator
